# **1. Telecommunication**

The minimum contract term for telecommunication connections and terminal equipment is 12 months. The contract is automatically extended by a further 12 months if it is not cancelled 3 months before the end of the contract.

Other contract periods on request.

## **1.1 System Connections**

S0 multi-device and S0 system connections, as well as analog connections can still be provided on request. S2M primary multiplex connections can be arranged with or without flat rates according to your wishes. The costs for an S2M primary multiplex connection depend on the services provided and start at 199,00 €/month.

## **1.2 Telephone line SIP (VoIP)**

We provide you with multifunctional VoIP telephone connections via our system. You can choose between a pure SIP trunk and a SIP telephone connection, with or without flat rates. The costs here start at 4.99 €/month.

## **1.3 1.3 VOIP Phone System in the Cloud**

You can find the range of functions for our telephone systems in the cloud at: <https://www.3cx.de/>

All systems are individually configurable and can also be integrated into UCS solutions such as teams. Price example: One system with 4 channels incl. server from 25.83 € per month. Other systems on request.

## **1.4 VoIP Devices**

We offer you a choice of different end devices, which have been tested by us on our systems. The cheapest devices are at 9,00 € rent monthly or are available for purchase from 99,00 €.

## **1.5 VoIP Headsets**

We offer you a choice of different headsets, which have been tested by us on our equipment. However, in our experience not all devices run equally well with every system. We will be happy to advise you on this.

## 1.6 Minute Prices in the German Landline and Mobile Network

German Landline Network	0.023
Mobile Network De, D2, ePlus and O <sup>2</sup>	0.140

Flat rates can also be booked tailored to your needs. Prices on request.

## 1.7 Minute prices abroad and special numbers

On demand

## 2. Bandwidths (Internet Connections)

The minimum contract term is 12 months for Fiber Business Connect Internet connections and 24 months for DSL and Fiber DSL connections. The cancellation period is 3 months to the end of the contract, otherwise the contract is automatically extended by 12 months.

### 2.1 Event WLAN in THE SQUAIRE

WLAN provision for events in THE SQUAIRE.

Bandwidths fiber DSL DL/UL	per Day	Installation once
100Mbit/s Download / 20MBit/s Upload	149,00	250,00

  

Bandwidths Fiber Business Connect	per Day	Installation once
500Mbit/s Download and Upload	499,00	250,00

Further bandwidths on request

## 2.2 VDSL Connections

Connections for private and small businesses. The ADSL/VDSL connections can only be delivered with a static IP address.

Bandwidths DSL / Fiber DSL DL/UL	24 months monthly	Setup once
50Mbit/s Download / 10 MBit/s Upload	49,00	99,00
100Mbit/s Download / 25 MBit/s Upload	59,00	149,00
250Mbit/s Download / 50 MBit/s Upload	79,00	149,00

recommended hardware	rental fee 24 months monthly	purchase price
Hardware for connection over VDSL Fritzbox from version 2018	On request	On request

## 2.3 Broadband Connections Fiber Connect

We offer you Fiber Business Connect Internet connections for companies and networks from 10 MBit/s to 10 GBit/s all common bandwidths via our fiber optic networks. The prices depend on the desired bandwidth and the contract period. They start with the 10 MBit/s variant for 99,00 € plus a one-time installation fee. The connections include a subnet of fixed public IP address and can be underlaid with an SLA according to the requirements.

Other bandwidths and special solutions on request.

## 2.4 Flex- Contracts

With our Flex contracts you can flexibly adjust your bandwidth to your needs once at the beginning of the month. Thus you are flexibly prepared for possible future events and can react at short notice, depending on your needs. For the installation, a one-time installation fee is charged in addition to the monthly fees.

You can flexibly choose between bandwidths from 20 Mbit/s to 1000 MBit/s in logical steps. The Flex contract has a term of 36 months and is automatically extended for a further 12 months if it is not terminated in writing 3 months before the end of the contract. One-time adjustment costs are incurred per changeover.

## 3. *Worldwide connections*

We offer attractive conditions for the direct connection of your locations/offices. Connectivity via MPLS or SD-WAN is also possible with our partners. Please contact us for this, we will submit you an interesting offer.

## 4. *Data Center*

### 4.1 *Accommodation distributed components in the data center*

We have several secure technical rooms/data centers at different locations, redundantly connected via high-speed fiber optic networks. Here you have the possibility to store your hardware. You can only rent the "rack space" from one height unit (HE) to the whole rack (42 HE). With all variants we offer you a guaranteed connection capacity.

The power consumption costs are measured by means of separate meters.

We will be happy to advise you here and provide you with an individual offer.

### 4.2 *Virtuelle Server*

We can provide you with virtual machines from our cloud for your data center needs. We start with Single Server (1 Core, 8 GB RAM, 100 GB HDD) from 49,00 €/month. We would be happy to make you an offer tailored to your needs.

## 5. *Other Services*

We are happy to be at your disposal for all other services related to your IT
